

Indoor Tent

This activity boosts imaginative play on a boring day! Try it out with the kids!

Supplies

- Bed sheets
- Pillows
- Chairs
- Table
- Clothespins or tape
- Large space

Directions

1. Clean and set up the large space.
2. Remove any breakable object from around the table so that they don't break when the kids are tired of the tent and want to move away impatiently from it.
3. Spread the bed sheet over the table and pin the ends below the four legs. You can use clothespins to secure any loose end.
4. Spread a warm quilt on the floor and throw in the pillows. Keep an emergency light handy if you plan to go on a 'night expedition' outside the tent!
5. The stage is set for great imaginative play!
