

Making an Oobleck

If you have read “Bartholomew and the Oobleck” to your kids, then they must have fun doing this activity. Otherwise, take this chance to read the book with them to begin with its making.

Supplies

- 1 cup cornstarch
- Bowl
- Glass of water
- Green food coloring

Directions

- Add the cornstarch to the bowl.
- Start stirring small amounts of water until you have a thick syrupy mixture.
- At this stage, add a few drops of green food coloring.
- Can you shape the syrupy mixture into a ball? Try pouring the mixture into another container. Does it lose its solid state and turn liquid?
- Your Oobleck is ready to play with!
