

Tissue Paper Fun

Put your used tissue paper rolls to good use with this awesome activity and teach the little ones about the need to recycle.

Supplies

- Empty tissue paper roll
- Colorful tapes
- Scissors
- Kitchen paper holder

Directions

1. From toddlers to primary school, this activity is great for the kids to practice hand-eye coordination.
2. Help the kids cut out the toilet paper rolls in small sizes and start taping them with strips of the colored tape in no definite pattern. Feel free to paste one strip over, next to, under, or across another!
3. You can also add stickers if your child wants to continue the decoration activity even longer!
4. Slid the small rolls through the spikes of the kitchen paper holder and your tissue paper figurette is ready to go in your collection of artwork.
