

TELLING TIME

What's the Time?

Write the correct time in the box under each clock.

Here's Help:

5:15

6:00

10:30

1:15

3:00

11:30

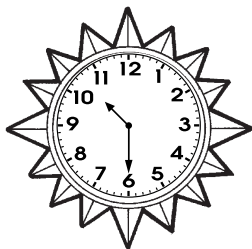

9:45

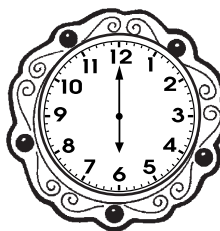

7:45

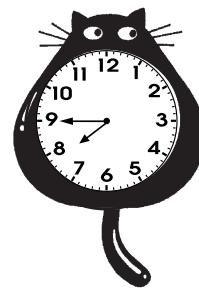

1:30

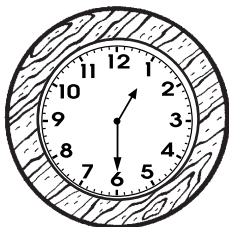

12:30

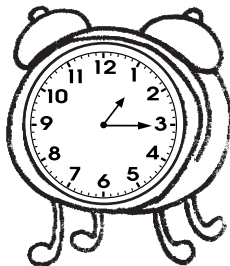

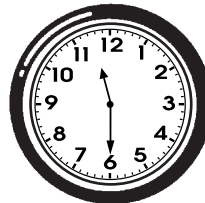

CJ Says:

Use an analogue clock to work with your child on the concept of time. Sit together and move the hands of the clock to show different times during a day. Give your child a variety of times and ask her to move the clock hands to show the time. If possible, give your child an analogue watch and ask her to give you the time often over a period of several weeks. This will help reinforce telling time.
