

## The Cold Facts

Add and subtract the problems on the grids below. Watch the signs! Write your answers on the icicles.

+	4	6	8	2
4				
6				
8				

-	5	6	7	8
10				
12				
9				

CJ Says:

Put small objects on a table. Have your child take away two objects. Ask how many are left. Repeat with other objects and numbers. To review addition, put the objects together. Point out that subtraction and addition are opposite operations.
