

Freeze!

Multiply the numbers in the ice cave below.
Write your answers on the icicles.

X	0	2	4
5			
6			
3			
8			

CJ Says:

Write the numbers 0 to 9 on one set of index cards and the same numbers on another set. Lay the cards face down in two piles. Take turns with your child by drawing a card from each pile and multiplying the two numbers. Let your child use counters if they will help him solve the problems.
